- 15 Participant Kits (for your first workshop)

Invitation from FranklinCovey In partnership with the Regional Community Policing Institution – California

We invite you to join us for a special 3 day event and kickoff of *The Policing at The Speed of Trust* program. There has been much anticipation for the launch of the program after we highlighted it with a keynote speech at a plenary session at the IACP Conference in Chicago. Feedback on the session included the words; Excellent, Insightful, Outstanding, Invaluable, and It made a difference!

As an added bonus by attending this kickoff event you will also become certified in *The Nobility of Policing* program.

HIGHLIGHTS FROM THE PROGRAM

Policing at The Speed of Trust –

This full day program will teach officers how to build trust through leadership. The program will not only impact these officers in their associations with their peers but also with the community they serve and their family. Participants will learn how to increase their personal credibility, along with how to build, extend and restore trust while making a distinctive contribution to society.

Nobility of Policing –

This half day workshop (can be taught in a full day) helps officers remember the nobility of their calling in law enforcement. Given the demands of the profession it's easy for officers to become tainted, cynical and disengage from the job. The Nobility of Policing program will bring back the feelings these officers had when they left the academy and support them as they reengage in the job.
